Introduction to Family Members and Friends

Harmony House provides a comprehensive treatment program for our residents. Included in this therapeutic community, are psychological assessments and interventions, group work processes, medical support, and individual counseling with experienced counselors working in the field of addictions. Stepwork and fellowship affiliation are central to the recovery process.

Harmony House recognizes the value of Family work and invites significant family members, friends, and partners to become involved in the recovery process. The client's counselor may contact you for collateral support.
